

VDP

Quality Products, Excellent Service.

Variety Disposable Products

Variety Disposable Products is unique in nature and has been serving The Bahamas for the past 17 years. This company was established with the philosophy to provide products and services to the Bahamian people at the most reasonable cost.

Our priority is to offer reasonable prices and good customer service above profit. VDP continues to provide alternative brands that are compatible in quality to the major leading traditional brands to our customers. Our mission is to help the average and low income consumer to enjoy good quality products at cost effective prices.

Our company originated VDP started out from inception with a line of Disposable paper and plastic products. Although originally offering disposable paper and plastic products, over the years, complimentary products such as cleaning supplies, cooking/baking utensils, janitorial supplies and equipment, snacks, beverages, dry food products, party supplies and more have been added to our selection of products. We provide great wholesale prices that are attractive to private institutions and retailers.

Variety Disposable Products is a company that is fully Bahamian owned and one that experiences consistent growth. For this, we thank **you!**
